

## DOPE RATZ User Stories:

1. As a pest control worker, I need to access customer information from app so I can determine where my services are needed.
2. As a user of the app, I want to register an account, so I can easily access and enter information to the rat database.
3. As someone who has sighted a rat, I want to use the app to file a rat sighting so the information can be made known.
4. As a potential homeowner, I would like to use information from the app to determine if a specific location is rat infested.
5. As an admin of the app, I would like to access a list of active accounts and be able to add and remove them at will.
6. As the user of the app, I would like data to be stored and be able to see the same information from a previous login
7. As the user of the app, I would like to have a secure login, so that I can have a differentiated account.
8. As a potential homeowner, I would like the (Rat app name) to have a visual of rat density within an area in order to determine places of high infestation.
9. As an exterminator, I would like to have specifics available on rats, in order to track the movement of groups of rats.
